SUMMARY

Results-driven and detail-oriented .NET Software Developer with 3 years of experience in designing, implementing, and maintaining scalable and efficient software solutions. Proficient in the entire software development lifecycle, from concept and design to testing and deployment. Adept at collaborating with cross-functional teams to drive project success. Seeking a challenging position where my technical expertise, passion for innovation, and commitment to quality can contribute to the success of a dynamic development team.

KEY QUALIFICATIONS

- **Programming Languages:** C#, Python, JavaScript (ES-6), C
- **Web Technologies:** ASP.NET, ASP.NET Core
- **Database Management:** MS-SQL, MySQL, Elasticsearch etc.
- **Front-End Technologies:** HTML5, CSS3, jQuery
- **Version Control & CI/CD:** GitHub

WORK EXPERIENCE

SENIOR SOFTWARE DEVELOPER

Nov 2025 - Current

Technables IT Solution Pvt. Ltd, Koteshwor, Kathmandu, Nepal

- Led a cross-functional team in developing WatchX, a modern watch buying and selling platform, delivering key features for users and sellers.
- Directed the design, development, and implementation of the MetLife Insurance Claim System, ensuring compliance and meeting insurance domain needs.
- Leveraged software architecture expertise to architect scalable solutions, integrating robust CI/CD pipelines to enhance system performance, reduce time-to-market, and ensure seamless development workflows.
- Led agile development processes, ensuring efficient project timelines and fostering a high-performing team.
- Projects: **WatchX, Metlife Claims, Metlife Store**

MID SOFTWARE DEVELOPER

Aug 2023 - Nov 2025

Technables IT Solution Pvt. Ltd, Koteshwor, Kathmandu, Nepal

- Contributed to a .NET-based CMS by creating diverse view components, notably including CAPTCHA solutions (v2 and v3), enhancing its functionality and security measures.
- Led the development of a theater management system, integrating a 'Show Schedule Prediction Module' and enabling dynamic, real-time updates using SignalR for enhanced efficiency, and used FullCalendar (JS library) to represent the show schedule.
- Collaborated with real-world inventory managers, identifying their challenges and crafting tailored software solutions to address their specific needs and optimize inventory management processes.
- Designed and developed RESTful API endpoints for parking management software and data formats for efficient communication and interaction between system components.
- Projects: **One Cinema, Landmark, Eyeplex, TA-Parking, TA-Inventory**

JUNIOR SOFTWARE DEVELOPER

Nov 2022 - Aug 2023

Technables IT Solution Pvt. Ltd, Koteshwor, Kathmandu, Nepal

- Assisted in developing web components and modules for the School Management System, supporting overall system functionality.
- Implemented small-scale services and features to improve data handling and search capabilities within the system.
- Built and maintained datasets using automated tools to support development and testing processes for the School Management System.
- Contributed to the School Management System by learning, creating, and maintaining various modules, ensuring they worked correctly and efficiently.
- Projects: **School Management System**

EDUCATION

Bachelor's of Computer Engineering(TU)

Sep 2018 - Sep 2023

KCE,Khwopa College of Engineering, Libali, Bhaktapur, Nepal

High School, Science(NEB)

Jun 2015 - Apr 2017

GIC, Greenland International Higher Secondary School, Biratnager, Morang, Nepal

Secondary School(SLC)

Jun 2005 - Jun 2015

Srijana S.E.B. School, Golbazar, Siraha, Nepal

CERTIFICATIONS

Microsoft Certified: Azure Fundamentals

Apr 2023

Microsoft

REST API and Microservices Development

Sep 2023

Udemy

Advanced Databases and SQL Querying

Feb 2024
